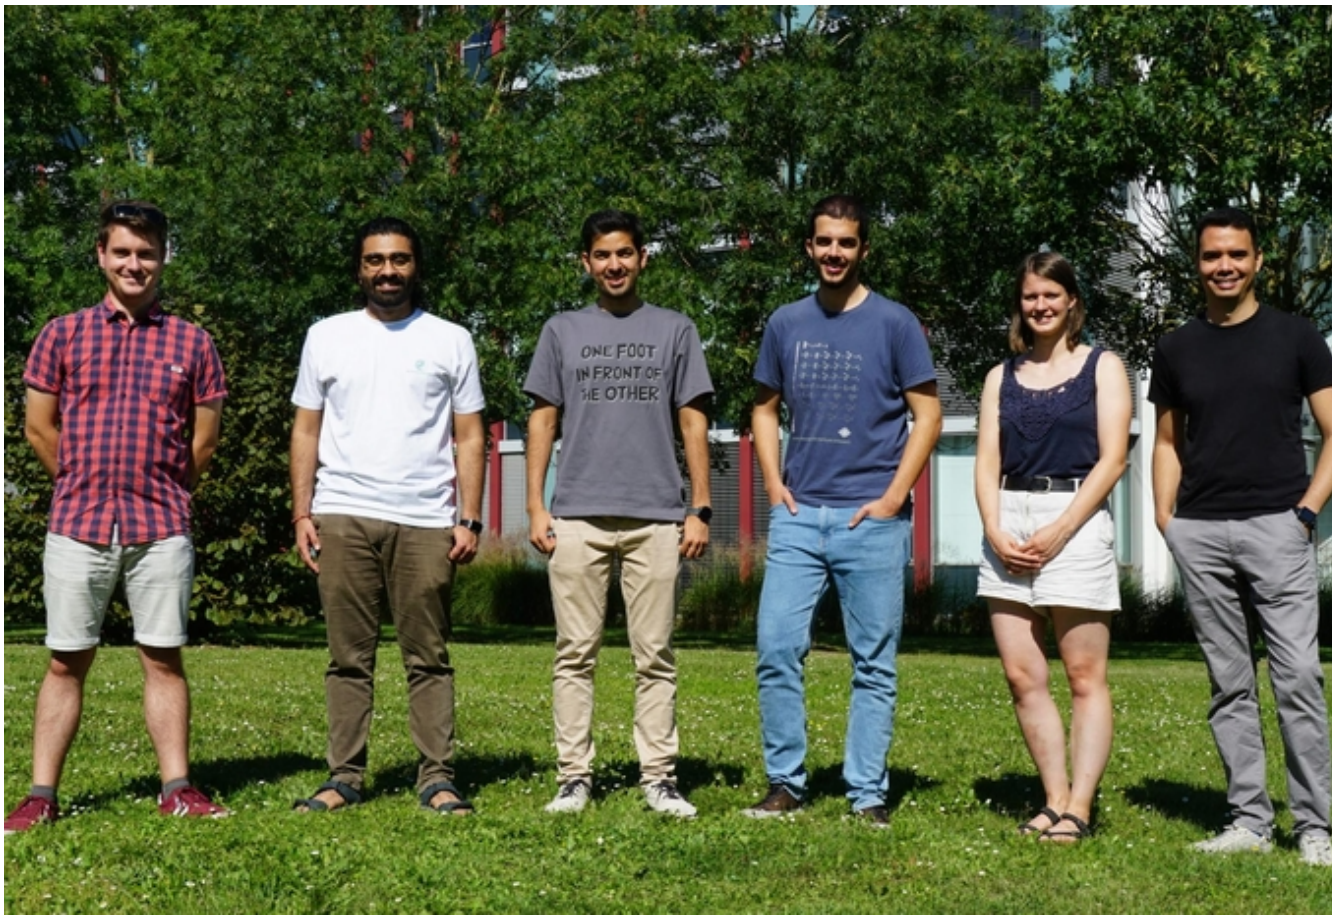
STUDENT CHAPTER OF SIAM MAGDEBURG

Über Uns



The Student Chapter of SIAM Magdeburg is an association of students from the Otto von Guericke University Magdeburg and th Max Planck Institute in Magdeburg .

Our activities include:

- Exchange of information between university and industry in the form of lectures, excursions and workshops,
- scientific contributions to topic-oriented applications from industry and
- individual support for members.

Students who are interested in current research topics in applied or industrial mathematics are warmly welcome! › Contact (https://siamchapter.ovgu.de/Kontakt.html) › registration form (https://siamchapter.ovgu.de/Kontakt/Anmeldeformular.html)

"Hello applied mathematics students in Magdeburg!

Being a student member of SIAM is a free way to get book and conference discounts

as well as other things like SIAM News, but I think the most important benefit is the intangible one -

greater involvement with our exciting field of computational and applied mathematics."
