

STUDENT CHAPTER OF SIAM MAGDEBURG

Naturkundemuseum

22.09.2023 - We were happy to visit one of the must-see museums in Magdeburg - the **Museum of Natural History**
(<https://www.naturkundemuseum-magdeburg.de/welcome.html>) on Friday, 9/22/2023 at 15:00.

The museum offers a permanent exhibition dedicated to biodiversity and evolution, habitats of Saxony-Anhalt as well as climate change and evolution during the Ice Age. There is also a special exhibition on prehistoric crabs.

The tickets and the guided tour were sponsored by SIAM Chapter. We hope that all the participants had fun and could broaden their scientific horizons
