

STUDENT CHAPTER OF SIAM MAGDEBURG

About Us

The Student Chapter of SIAM Magdeburg is an association of students at the Otto-von-Guericke University of Magdeburg and the Max Planck Institute in Magdeburg.

Our activities include:

- ▶ exchange of information between university and industry in the form of lectures, field trips and workshops,
- ▶ scientific contributions to thematically applications from industry and
- ▶ individual promotion of members.

Students who are interested in current research topics in applied or rather industrial mathematics, are more than welcome!

"Hello applied mathematics students in Magdeburg!"

Being a student member of SIAM is a free way to get book and conference discounts

as well as other things like SIAM News, but I think the most important benefit is the intangible one -

greater involvement with our exciting field of computational and applied mathematics."
